## CLUSTERIZER MACHINE

CARDBOARD PACKAGING

CX-6000  
clusterizer  
machine

The **CX-6000 clusteriser machine** wraps products such as trays, cups, yogurt, cans, in multipacks or individual-product, by starting with tight cardboard straps, closed at the bottom with hot glue applied by

hotmelt system, or with an interlocking device. This type of packaging allows **overlay and exposure to the public while maintaining, through front windows, visibility of the product**, by improving the aesthetic ap-

pearance. It is indicated for the foods, milky-cheese, homemade, cosmetics, beverage sectors.
